RU Declaration

Supplier statement regarding iron and steel products as covered by Annex XVII of Council Regulation (EU) 833/2014 (“the Regulation”) as amended latest by Council Regulation (EU) 2023/1214.

September 30, 2023

Under the EU Council Regulation (EU) No. 833/2014 of July 31, 2014, restrictions on iron and steel products from Russia entered into force on September 30, 2023.

Precision Digital’s products are digital displays and control devices (and their accessories) and thus are not “iron and steel products” as defined in Annex XVII, however;

We, Precision Digital Corporation, declare compliance with the current regulation. We affirm that in accordance with Article 3, Paragraph 1 and Annex XVII, we do not import any iron and steel products from Russia, do not use these materials in items of our own manufacture and to best of our knowledge, these materials are not used / sold by our current suppliers.

Precision Digital Corporation is committed to stringent adherence to all local and international laws, regulations and sanctions and continuously monitors our supplier’s compliance with applicable regulations. Should we become aware of deviations from any of these standards, we take immediate and necessary action to protect ourselves and our customers.

Sincerely,

A handwritten signature in blue ink that reads "Jeffrey Peters".

Jeffrey Peters
